

If you order solicitations from our website, Please Read!

Access to our solicitations is changing!

Effective February 15, 2006, USACE has been directed to discontinue use of the Electronic Bid System (EBS) used by the Corps of Engineers for the last several years. We will be posting our solicitations and documents to the secure Federal Technical Data System (FedTeDS) servers. Potential offerors, plan rooms and printing companies will be required to register in both CCR and FedTeDS systems to view or download solicitations. **The Galveston District will no longer routinely furnish CD's of our solicitations.**

Once the EBS is discontinued, contractors will have to monitor the Federal Business Opportunity website at www.fbo.gov to determine what work is upcoming and when it will be issued. They will also have to monitor FBO for any changes to the solicitations. (If you need assistance using the FedBizOpps website, call 1-877-472-3779).

Finding our Solicitations

Once on the Fed Biz Opps website, click the "GO" button beside **Find Business Opportunities** at the top left side of the screen. From this page you can perform a search in many ways to locate any available government solicitation. To find an available solicitation for the Galveston District follow the steps below.

- In the block titled "Full Text Search", type "W912HY".
- Click on "Start Search".
- View the list of projects.
- When you find the solicitation you are looking for, click the project title.
- On the following screen, click "Technical Data Package".
- On the next screen, click the link that reads "Available via the FedTeDS website".

This link takes you to the FedTeDS website. You must login using the Username and Password that were created or assigned during your FedTeDS registration. Steps for downloading the technical data package are available in the FedTeDS Vendor User Guide on their website (www.fedteds.gov). If you need assistance using the FedTeDS website, call 1-866-618-5988 (toll free).
